

# Data sheet:

## VKLF KPL inverter mount

Material: S355 steel/stainless steel

### Usage:

The VKLF6 inverter mount is adapted to the VS3H pole. The VKLF6 KPL set is additionally equipped with an innovative N-EZP-M8 slide nut. It allows a full range of adjustment of the inverter mounting to the XP-SZ-MF2,5 channel.

Designation for the order	Catalogue number
VKLF6 KPL	5091222022

### Installation method:

- The bail is placed in the XP-SZ-MF channel through the kidney slots.
- Slide nuts are placed in the open part of the channel and facilitate installation of the inverter.
- The bail with the channel is then attached to the pole with a plate and nuts.
- The channel ends are protected by caps.
